A Complete Gynae Laparoscopy & ENT Care Centre

NAKSH RHINOPLASTY CENTER

Rhinoplasty requires dedication and has a long learning curve. Major recent changes in techniques have made this operation more complex, more lengthy, But undoubtedly with significantly improved results. This 6 days fully hands-on fellowship programme has been designed in such a way that participants could learn the basics first and also update about latest techniques of rhinoplasty. The aim of course is to teach how to avoid pitfalls that will require a revision to your primary rhinoplasty.

WHO SHOULD ATTEND

Surgeons of different specialties (Plastic, ENT, Maxillofacial) who wish to enhance their skills in rhinoplasty at any level of experience. Both beginners and proficient rhinoplasty surgeons will draw benefit from the customizable fellowship programme.

LEARNING OBJECTIVES OF COURSE

Items which will be covered

- Preop analysis and Evaluation of Rhinoplasty Patient
- Material and instruments for Rhinoplasty
- The Concept of Nasal Aesthetics & Photography
- Clinically oriented nasal anatomy
- Open Rhinoplasty step-by-step: technical pearls
- Different type of Osteotomies: Principle, Technique & Avoiding Complications
- Suturing Techniques for Tip Modification
- Tips & Tricks: Different type of graft harvesting techniques
